

Getting Started

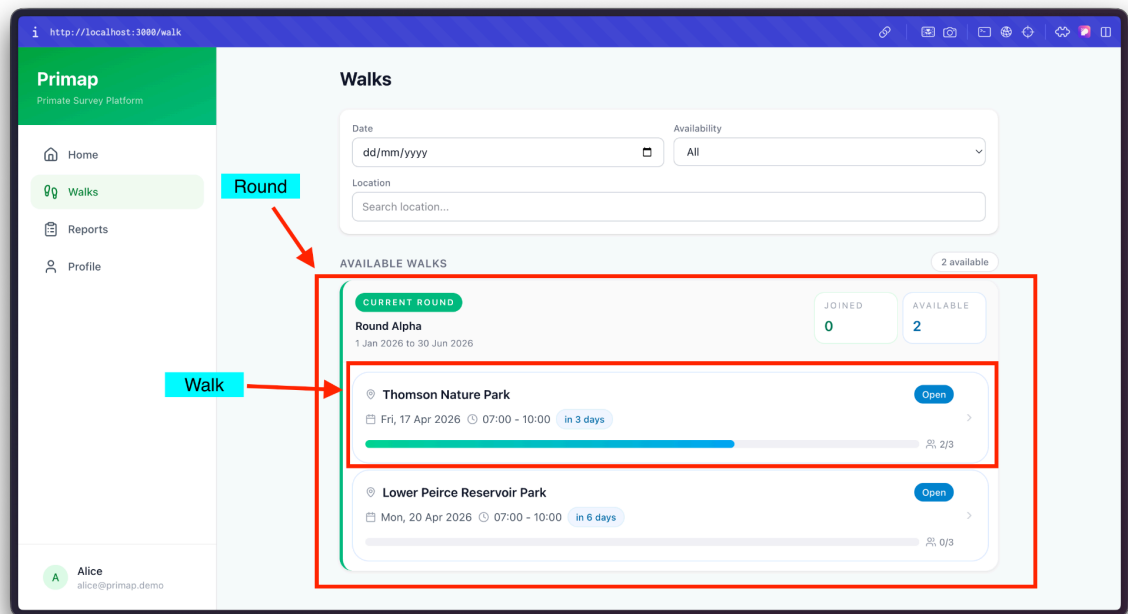

This guide serves as a quick tutorial for Primap. Follow the sections in order to familiarise yourself with the basic features of Primap.

Section 1: Joining Walks

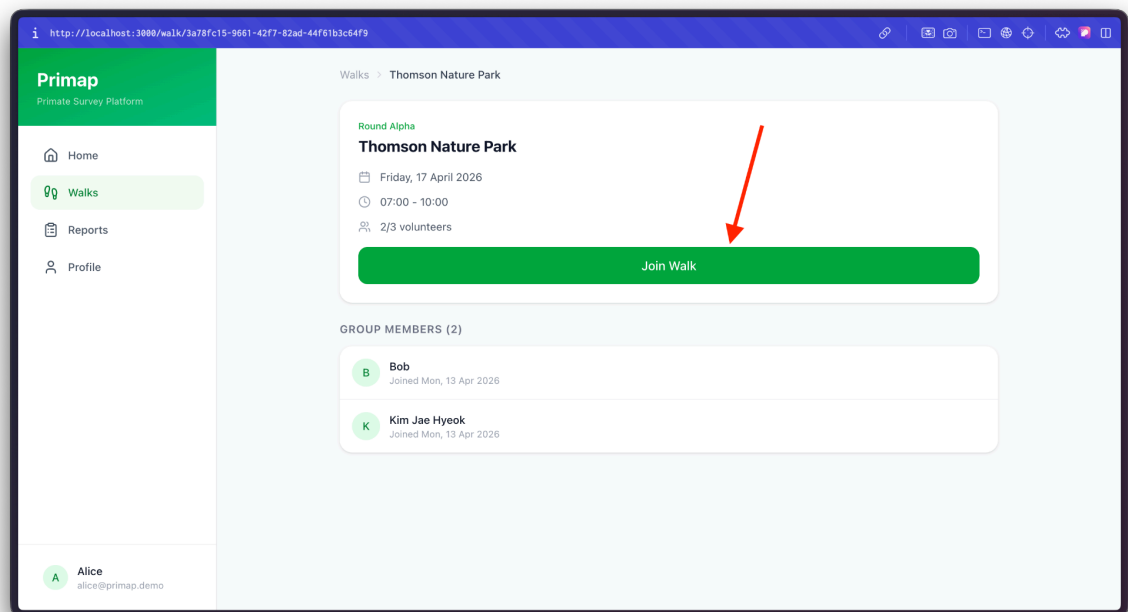

1. Navigate to **Walks**

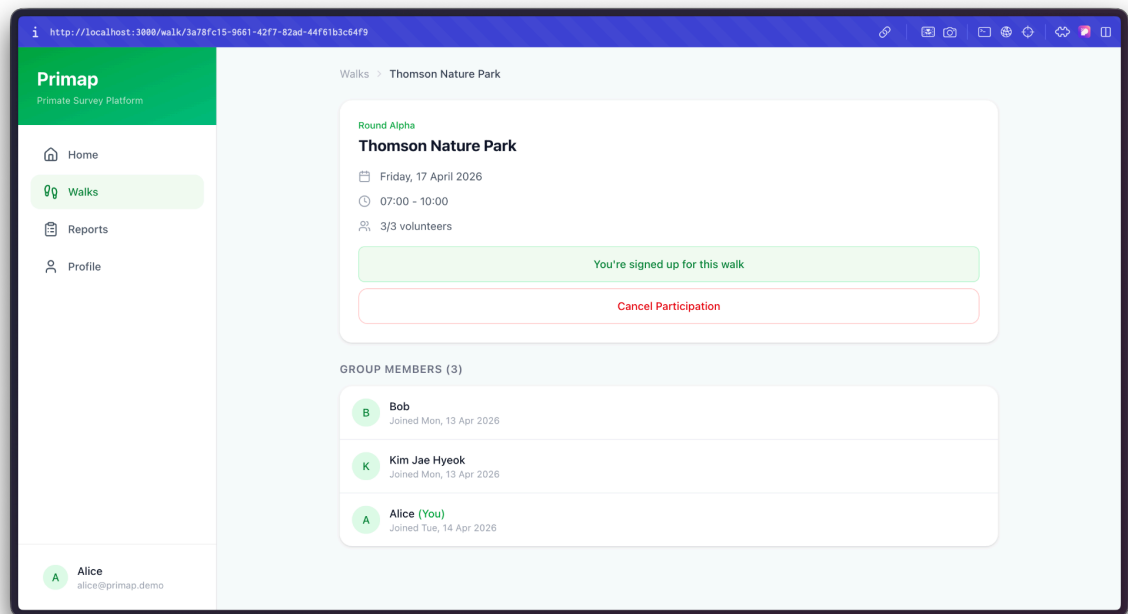

- Upcoming walks will be displayed, grouped by the survey round they belong to

- Click on **Join Walk**

4. This message should be displayed to confirm your participation

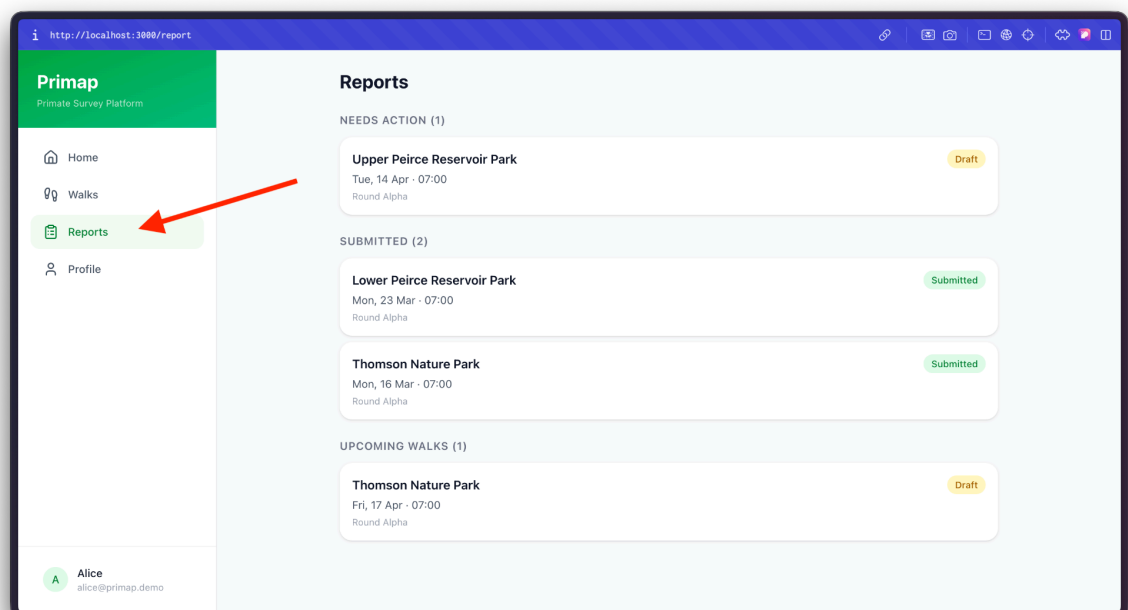

Section 2: Reports

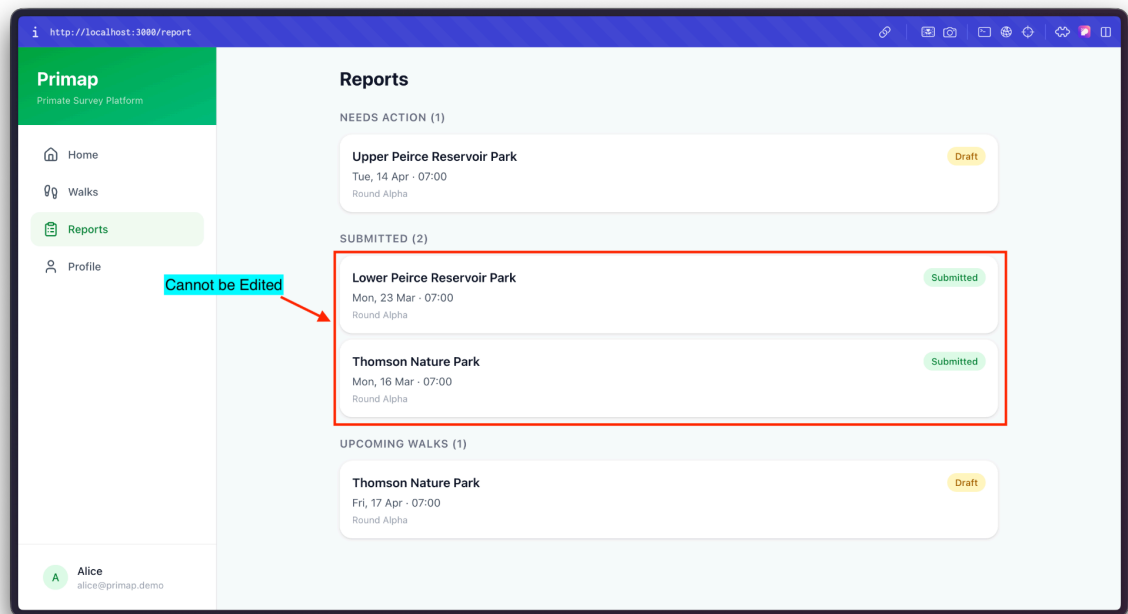

Note: You should have joined at least one walk to be able to follow the steps here, see section 1 above

2.1: Editing and Submitting Reports

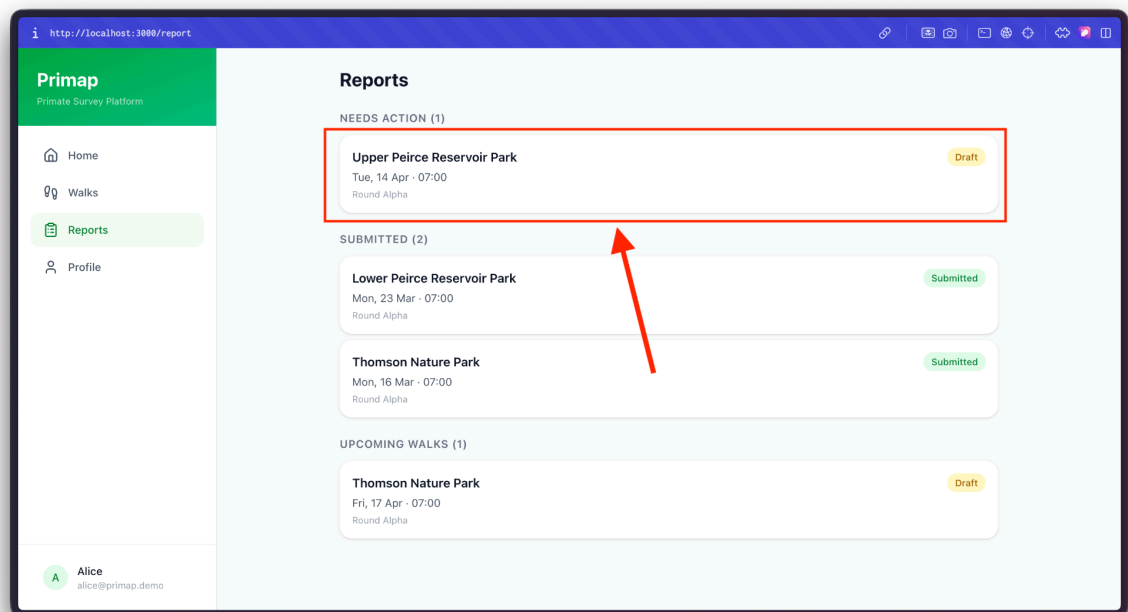

1. Navigate to **Reports**

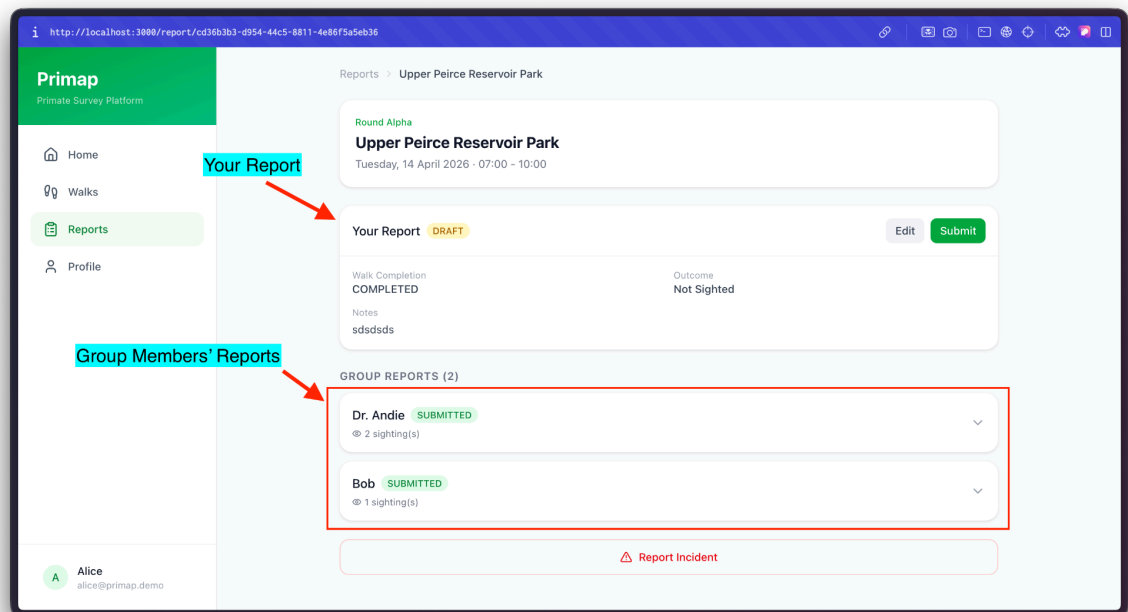

2. Reports under **Submitted** cannot be edited

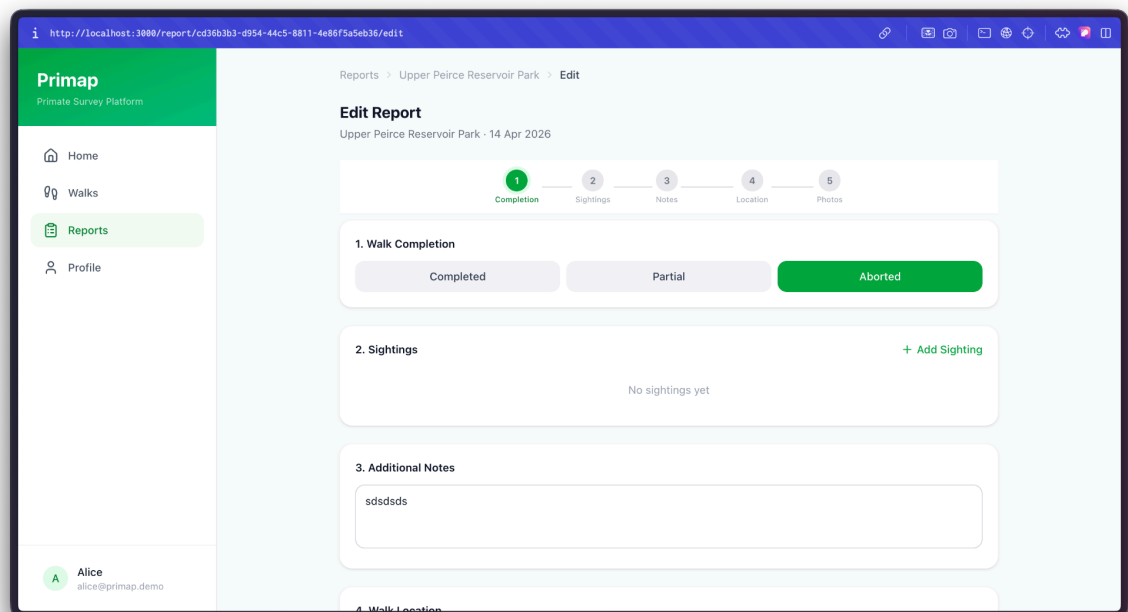

3. Click on a report under **Needs Action**

4. Your report along with reports of your group members will be displayed

5. Click on **Edit**
6. You can edit the various fields here (See 2.2: Report Fields for more details)

7. Your changes are automatically saved once the **Synced** message appears. But, for peace of mind, click **Save Draft** to ensure your changes are saved accordingly or

click **Submit Report** once you have completed the report.

The screenshot shows the 'Edit Report' page in the Primap application. The left sidebar contains navigation links: Home, Walks, Reports (highlighted), and Profile. The main content area has a progress bar at the top with five steps: 1. Completion (checked), 2. Sightings (checked), 3. Notes (active), 4. Location, and 5. Photos. Below the progress bar, there are two sections: '4. Walk Location' with a map and a green location pin, and '5. Photos/Videos' with a '0/10' count and an 'Add Photos/Videos' button. At the bottom of the page, a green bar indicates the report is 'Synced'. A red arrow points to this 'Synced' status.

Note: Reports CANNOT be edited once submitted

2.2 Offline Reporting

1. To allow for a smooth operation of the offline reporting function, users should navigate to the edit report page while they have a reliable internet connection. Afterwards, while offline, users should try not to refresh the page or navigate away from the page to maintain the reliability of the offline feature. Users should also try not to close the browser running Primap.

The screenshot shows the 'Edit Report' page in the Primap application. The left sidebar contains navigation links: Home, Walks, Reports (highlighted), and Profile. The main content area has a progress bar at the top with five steps: 1. Completion (checked), 2. Sightings (checked), 3. Notes (active), 4. Location, and 5. Photos. Below the progress bar, there are three sections: '1. Walk Completion' with three buttons: 'Completed' (disabled), 'Partial' (disabled), and 'Aborted' (active); '2. Sightings' with a '+ Add Sighting' button and the text 'No sightings yet'; and '3. Additional Notes' with a text input field. At the bottom, the '4. Walk Location' section is partially visible.

2. If Primap has detected that you are offline, this message will appear

The screenshot shows the Primap web interface. At the top, there's a progress bar with three steps: 'Completion' (checked), 'Sightings' (active), and 'Notes' (disabled). The main content area has a sidebar on the left with 'Home', 'Walks', 'Reports' (highlighted), and 'Profile'. The main form has a 'Notes' section with a text input and a 'Photos/Videos' section with a button 'Add Photos/Videos (queued for upload)'. Below this is a section titled '3. Additional Notes' with a text input. At the bottom, there's a yellow warning message: 'You are offline. Changes will be saved locally and synced when you reconnect.' A red arrow points to this message. At the very bottom, there are 'Save Draft' and 'Submit Report' buttons. The user's name 'Alice' and email 'alice@primap.demo' are visible in the bottom left corner.

3. Simply edit the report as you would normally and Primap will ensure that any changes you make are saved.

Note: You will NOT be able to submit the report while offline

2.3 Report Fields

More details regarding some of the fields of a report can be found here. This section serves to inform and does not need to be read in order.

1. Walk Completion
 - a. Completed: Walk was completed
 - b. Partial: Only part of the walk was completed due to inclement weather or other reasons
 - c. Aborted: Walk was not started at all due to inclement weather or other reasons
2. Sightings
 - a. Species: Species spotted
 - b. Count: Number of animals of that species spotted
 - c. Time: Date and time of spotting the animal
 - d. GPS Location: Location where the spotted animal was found
 - e. Notes: Additional information related to this sighting
 - f. Photos/Videos: Add related photos and videos here (Limit of 10 per sighting)

Note: You can have multiple sightings for one report if necessary
